This includes 2 cameras, one for the bride and one for the groom.

The Love Story – Romantic (or even high-spirited) couple footage combined with personal stories (how you met, first date, proposal, etc.) Can be shown at the rehearsal and/or reception on large screen along with your photo-montage.

Prequel – A short, spirited, sneak-peek movie trailer, of the wedding day! It peaks the curiosity of what's to come. Sometimes romantic, sometimes fun!

Same Day Edit – Imagine you're at your reception, surrounded by everyone that is important to you and being able to share the Ceremony highlights from earlier that day! Your 'instant memory' is edited and shown to your guests using big screen projection.

Short-Form Video – A shorter version of your wedding day video that highlights the entire day in an artistic and cinematic manner, typically only 15-30 minutes long. This is the coffee and cake version everyone will love.

Total time is 1 hour. We attend ALL wedding rehearsals whether we are covering it for your video or not. This helps us make your wedding day a pleasurable experience without having cinematographers under foot all the time, because we know where we need to be and when.

Rehearsal Dinner Coverage:

After the rehearsal, we accompany you to the rehearsal dinner. For the next 2 hours we strive to capture all the important moments of the toasts, gift exchanges and other personal moments. We also record any audio from family members and wedding party that wish to share their memories of your lives as children, their personal wishes or advice for the bride and groom, etc.
